

Context and Access Plan

Task	Context Given to AI
Create Ticket	Ticket-related files and requirements only
Login Feature	Authentication module only
Fix Bug	Relevant error logs and affected source files
Code Review	Pull request changes only
Documentation	Feature requirements and implementation summary

Access Rules

- Provide only the files required for the current task.
- Avoid sharing the entire repository unless necessary.
- Never expose secrets, credentials, or sensitive customer data.
- Apply the principle of least privilege when providing AI context.
