

Staying Current Plan

Trusted Sources

- OpenAI Documentation
- GitHub Copilot Documentation
- Atlassian Documentation
- Official framework and language documentation (when applicable)

Team Practice

- Review official documentation regularly.
- Verify AI recommendations before implementation.
- Monitor updates to AI-assisted development tools.
- Update engineering practices based on validated guidance.

Summary

The engineering team combines trusted documentation with human review to ensure AI-generated outputs remain accurate, secure, and aligned with current best practices
